

# REIMAGINED RECYCLED PLASTICS

We use our manufacturing expertise and state of the art production techniques to minimise product waste and maximise product life expectancy whilst creating a product that will support the environment through:

- › Reducing water consumption
- › Reducing plastic waste over its lifetime
- › Reducing chemical usage
- › Recycling materials destined for landfill
- › Reducing volume of waste being sent to landfill

**SYR**  
**switch**

The SYR SWITCH range uses waste materials destined for landfill, recycled plastics, regrind plastics and thoughtful design, a simple switch to a sustainable future not only means that you are purchasing a product that is kinder to our environment, but also allows you to actively contribute to funding a project that is designed to reduce emissions somewhere on our planet.

# Our recycled range makes it easy to switch to more sustainable choices.
