

**99.9% pure Special
Salt!**

FINISH Special Salt

Unlike other dishwasher salts, Finish Special Salt is 99.9% pure!

Finish Special Salt is guaranteed free from residues and is easily soluble. Its purity ensures that your dishwasher's built-in water softening unit works effectively to prevent spots and watermarks on your dishes. Other salts may contain impurities like iron and carbonates which will damage the water softening unit.

Directions: Refill regularly. Follow dishwasher manufacturer's guidelines.
