Micro **AIROMA**[®]
Automatic fragrance dispenser

Dispenser also available in bright chrome

What is Micro Airoma®?

Micro Airoma® is an automatic air freshener dispenser that is designed to ensure facilities smell fresh and clean whenever a fragrance is required.

Micro Airoma® automatically delivers small bursts of fragrance at specific intervals in order to keep malodours at bay.

Through its sleek, compact and aesthetically pleasing design, the highly effective Micro Airoma® dispenser is designed to work in a variety of locations with the minimum amount of disruption to the surrounding environment.

How does the unit work?

The Micro Airoma® dispenser provides flexible and easy to use programming options, and can be set to match your exact location conditions.

The patented I.P.E.™ facility enables programmable fragrance intensity, by allowing users to program up to 3 periods per day of enhanced fragrance delivery to suit location requirements.

This I.P.E.™ feature means higher fragrance levels can also be selected at known busy periods and costs can be fixed.

A countdown clock indicates time period until the next spray giving a health and safety warning whilst confirming the operation of unit.

In addition, the Micro Airoma® dispenser is effective in facilities that are up to 200 m³ in size and there are 3,000 metered sprays per fragrance refill, for a refill life of up to 30 days.

Features and Benefits:

Micro Airoma® Feature	Benefit in use
Fully programmable dispenser	Choice of number of refills per year; 8, 12, 16, 24 hour operation; Choice of start time; Choice of days of operations (5, 6 or 7)
Visible countdown clock	Shows time until next spray, confirms operation of unit and provides a health and safety warning to the user
Patented automatic reset button	Automatically resets microchip back to 3,000 sprays which enables uninterrupted dispensing of the refill and removes the risk of human error between services
Audio alarm feature	Indicates when refill needs replacing
Lockable dispenser	Keeps refill safe and secure, reducing risk of theft and misuse
Unique private labelling facility	Allows you to label the dispenser with your logo
Top hinged dispenser	Servicing and refill replacement is quick and easy
Rental button available (30/45/60 days)	Enables speedy programming for service companies to meet their service pattern
2 colour options	Part of a co-ordinated washroom range

“Freshness through fragrance and technology”

LA COLLECTION 100ml refills

The La Collection range of Micro Airoma® fragrances offer style and elegance based on three of the top ten selling perfume brands in the world today, making them ideal for both inside and outside the washroom environment.

Each possess their own luxurious, refined fragrance, and have been specially designed to fit the Micro Airoma® dispenser. Each refill features 33% more fragrance than other competing micro aerosols, ensuring the impact of this range is the highest of its class.

RUBY

Base notes of sandalwood and white cyclamen accentuated by top notes of ylang ylang and mimosa. This delicious scent is sweet and oriental, with a slight hint of rose and vanilla.

JADE

A warm, woody scent charged with citrus and various fruits and herbs. Powerful and revitalising.

PEARL

A clean, fresh scent combining pink grapefruit, musk and yellow rose, to capture purity and sensuality. Think Champagne and roses.
